

# OUT OF STATE PROVIDERS

All providers who treat Washington clients or provide services must enroll with the Washington Medicaid. Including, referring, ordering, prescribing, attending or servicing providers.

## **“Out of State” Providers are viewed by the agency in different classifications**

- Those providers who provide healthcare to Washington state Medicaid clients in another state or U. S. territory
  - Those providers who are in certain designated border cities
- 

## **Providers who provide healthcare to clients in another state or U.S. territory**

- Must comply with the rule outline in the WAC 182-502-5005
- Must enroll with the program and meet all criteria as a provider in-state to be reimbursed for services

Must submit application(s) and supporting documentation including hard copy claim for services.

Documentation includes signed core provider agreement, debarment form, ownership document, professional license, DEA certificate if applicable, Medicare Enrollment form (if enrolled with Medicare).

Applications for services provided in another state are reviewed in accordance with WAC 182-501-0182 and Prior Authorization process.

Labs, pharmacies, and durable medical equipment located out of state that provide services to clients in Washington State, are exempt from this requirement.

---

## **Border Cities**

Certain designated border cities are considered the same as an in-state city for the purpose of healthcare coverage (see WAC-388-501-0175).
